LED
DayLite™

UNTETHERED, LIGHTWEIGHT AND PORTABLE

The advanced LED DayLite™ provides bright WHITE Light for all of your operatory needs. The Blue Cable™ connects to a battery pack on your belt, is shielded for your protection and contains a Tellurium Copper Alloy Heat Sink to provide a cooler, longer lasting LED. Available in your choice of a Small Optically Focused LED DayLite™ that clips onto your telescopes (or is attached to a Lightweight Headband) or the LED DayLite Twin Beam™, optically collimated to provide maximum intensity bright white light.

Simply look for the Blue Cable™ and

LED
DayLite™

LED DayLite Twin Beam™

Optically collimated for even brighter light, the advanced LED DayLite Twin Beam™ provides maximum intensity Bright WHITE light (5800°K). This lightweight and untethered light system comes with two lithium ion battery packs which can provide up to 9 hours of run time. Additionally, LEDs do not degrade and can be expected to provide illumination for thousands of hours!

LED DayLite Twin Beam™ Battery Packs

Type of Battery Pack	Lithium Ion (2 supplied)
Battery Pack Run Time	4.5 hours per pack, 9 hours with Power Link Cable*
Battery Pack Recharge Time	3 Hours
Belt Clip	Included

*Power Link Cable connects two battery packs, doubling the run time to 9 hours.
